

5/3/2019

CI report to Zone , March .

- Arm bands discussed at state , state CI panel expressed disappointment in the new ruling.
- We would like clubs to inform the DCI/ZA panel of people they are using to TD events , course builders etc , so that we can offer them access to training days and accreditation courses etc so to create better standardizations .
- 18/19 od May is the weekend for the major state workshop, details to be on the website. For instructors , riders members etc..
- our zone will be doing a Training day followed by an assessment day , NCAS in June /July.
- Comfort and safety day , aiming for a rep in each zone to run days to educate gear checkers , clubs etc on correct gear
- Fingers crossed a new syllabus will be release in May,
- Biggest changes to the K certificate
- Big congratulations to Manon Schey on her being selected to the inter pacific.
- Please remember if you have or are about to commence a certificate you will remain on that version of the syllabus till you complete it.
- Please all clubs remember to send people from your clubs to the next Zone meeting where there will be a half hour info session for new committees etc.

Regards Rob

Ps there are lots of new committee's coming in at present , please feel free to always ask myself or others for help or advice ,
